Welcome to Whatman™ filtration by Cytiva

Whatman™ offers an extensive line of filter papers. The innovative features of these filters make them the perfect choice for many filtering techniques. The qualitative and quantitative filter papers are manufactured from high quality cotton linters. There is a wide choice of retention/flow rate combinations to match numerous laboratory applications. The different groups of filter papers offer increasing degrees of purity, hardness, and chemical resistance. Whatman™ quantitative filter papers have extremely high purity for analytical and gravimetric work.

Basic analytical testing

In the vast and disparate world of analytical chemistry, Whatman products are used for basic laboratory processes that range from simple clarification to solvent extraction. Products range from filter papers, thimbles and Benchkote™ benchtop protectors, to membrane filters and phase separator papers.

Food and beverage

Our filter papers are used to prepare food samples prior to wide range of analyses. Our syringe filters prevent fatty or particulate laden samples from damaging valuable equipment. Our membranes are used to test for harmful bacteria.

Pharmaceutical

Whatman products enable pharmaceutical companies to increase productivity. Mini-Uniprep™ syringeless filters and vials reduce HPLC sample preparation time and consumables usage, and track-etched and Anapore™ membranes are also vital to extruding liposomes for encasing and targeting drugs.

Environmental monitoring

Whatman products are cited in EPA, ASTM and ISO protocols for environmental monitoring. Whether it is detecting suspended solids from water, measuring air for dangerous particulates, or supporting asbestos analysis to maintain healthy spaces there is a Whatman filter that is central to the test.

To

Dear Sir,

We Hyclone Life Sciences Solutions India Pvt. Ltd., part of Cytiva- formerly GE Healthcare Life Sciences a Company incorporated under the laws of India having its office registered at No.4 Kadugodi Industrial Area, Bangalore, Karnataka 560067, India, would like to bring some facts to your attention. We are the licensee of the following registered Trademark in India, which is owned by Whatman International Ltd, formally known as Whatman Paper Limited.

Whatman

The above mark has been registered in respect of "Chemical products used in science and industry and test papers (chemical) in Class 1", "Scientific instruments and apparatus included in class 9 "and "paper and paper articles included in Class 16".

The Trademark Whatman has acquired a very high reputation and goodwill by virtue of long, extensive and continuous use. The said Trademark is associated and identified exclusively with the goods manufactured by Whatman International Limited/ Group cos and marketed by Hyclone Life Sciences Solutions India Pvt. Ltd.

It has from time to time come to the notice of Whatman International Limited and Hyclone Life Sciences Solutions India Pvt. Ltd., that some other persons occasionally try to manufacture and sell spurious goods under the above Trade Mark without our consent or authority, and by making their products and packaging look like products made by Whatman International Ltd. In certain cases, Whatman filter paper specifications and the grading notations similar to Whatman are being used to misguide the trade and public. This is considered objectionable to Whatman International Ltd and Hyclone Life Sciences Solutions India Pvt. Ltd who have taken action successfully against some traders in India for selling spurious goods. The spurious goods were seized and destroyed, and damages were paid.

We want to bring to your attention regarding the spurious goods so that you are not misguided in your trade relating to Whatman products. Further, we wish to encourage you to write to supportdesk.india@cytiva.com in an event you come across any spurious products bearing Whatman Trademark.

Yours Sincerely,

For Hyclone Life Sciences Solutions India Pvt. Ltd.

PRADEEP NAIR
GENERAL MANAGER, SOUTH ASIA – CONSUMABLES
